Accessing LinkedIn Learning: Overseas Partnership Students

Following the upgrade to LinkedIn Learning (from Lynda.com) there is a different way for students at Staffordshire University Partner Colleges to create an account. This is because the authentication now requires a Staffordshire University email address.

Overseas Partnership Students should follow the steps below in order to create a LinkedIn Learning account:

- Go to this link: https://www.linkedin.com/checkpoint/enterprise/login/35633836?application=learning

- A box like that shown below will be displayed. Create an email address with your Staffordshire University username in the format: username@student.staffs.ac.uk then enter your Staffordshire University password:

  ![LinkedIn Login](image)

- Click the Sign in with LinkedIn button and follow any further on-screen instructions.

- You will have the opportunity to link your LinkedIn Learning account to your LinkedIn account (if you have one).

- You can also identify topics of interest when you set your account up. This will allow LinkedIn learning to recommend new courses of possible interest to you.

If you have any problems creating your account using these instructions, please contact us on academicskills@staffs.ac.uk. If possible, please include a screenshot of any errors shown in order for us to investigate.
